

I would request that the LPFM not be expanded & possibly taking priority over the radio station my family & I currently listen to & support. K-LOVE is an asset to my community. K-LOVE announces family events over the radio, I believe that helps families do more together. The music played by K-LOVE helps encourage people & even gives them a place to call for help. I do not believe a LPFM broadcaster could perform the same helpful functions that K-LOVE does so very well. It is a blessing to our town & individual people by the support they can give when they ask for help. It makes me think of smiling at someone who looks grumpy & they smile back & then will smile at the next person....that is what K-LOVE does, it passes love & caring around then we in turn can share it with others in our community! I appreciate your time, thank you, Wendy Thompson
